

TOOTH FAIRY

PROFESSIONAL TOOTH WHITENING

NEW! Tooth Fairy LED Tooth Whitening System. *Tooth Fairy products are produced by a dental professional who has been internationally retailing Tooth Crystals within the professional beauty and hair market since 1999. Tooth Fairy is already famous for top quality products, training and customer support.*

Tooth Whitening with a LED light was inspired within the beauty, hair and nail market due to a change in cosmetic laws. The law has changed into "one does not have to be a dentist to perform this treatment since it is now a cosmetic product". This change has inspired Tooth Fairy to expand their already existing Tooth Whitening products to include Tooth Whitening with a LED light. This Tooth Whitening system allows you to provide a quick, easy and affordable treatment to your client! Many people have always dreamed about having their teeth whitened but found it was too expensive to have the treatment within a dental office. The treatment price for the client has been reduced within the salons making it more affordable for people to whiten their teeth. You will charge the client between £70-150 for one complete treatment.

Tooth Fairy believes Tooth Whitening is the trendiest and largest profit making treatment in today's beauty, hair and nail market. We have opened our own Tooth Whitening Centre to provide the service to the public. Tooth Fairy attends 40 beauty and hair exhibitions throughout Europe each year where we will be launching our new Tooth Whitening System into every country.

The process of Tooth Whitening is simple. Tooth Whitening is similar to a skin facial except the treatment is a facial for the teeth. All teeth have pores just as skin does and over time the pores in one's teeth become clogged with stain. Stain is caused from red wine, smoking, coffee, tea and just day to day living which make teeth appear yellow in colour. Once a client has the whitening gel on their teeth, the gel instantly starts

to remove the built up stain within the pores making the teeth whiter.

Tooth Fairy has produced a Tooth Whitening Kit which will enable you to provide the Tooth Whitening service to all your clients. Due to our dental professional knowledge you will be able service all client's properly. Our Tooth Whitening Starter Set contains 25 Tooth Whitening Kits from Method 1. Profits will be made from your initial purchase of our Tooth Whitening Starter Set. Tooth Fairy has the lowest reorder prices on the market for your Tooth Whitening Kits. Either Method costs £15 to reorder with no minimum order.

Method 1 Kit This method is performed by simply filling a bleaching tray with gel, sliding it into your client's mouth, shining the LED light onto the client's smile zone and programming the LED light. You will program the LED light for 15 minutes repeating the procedure 2-3 times for one treatment. Method 1 will increase the whiteness of the client's teeth 3 to 7 tooth colour shades. A sample of our Tooth Colour Shade Guide is below. This method can be used on any kind of tooth even over caps and fillings. The caps and filling will not change colour but you will match the original teeth back to the colour of the cap or filling (any dental work).

Our Tooth Whitening Starter Set allows you earn profits from your first initial purchase. Our Starter Set contains 25 Method 1 Tooth Whitening Kits. You are charging the client £70-150 for one complete treatment.

Tooth Whitening changes the tooth colour however the colour change is not permanent. Once a customer begins to whiten their teeth they must refresh with follow up appointments every six month to 2 years meaning repeat business for you. The new tooth colour is affected by how often they smoke and drink coffee, tea or red wine.

Tooth Whitening is an easy treatment to learn. Our instructions which are in your Tooth Whitening Starter Kit are explicit and easy to follow. Our pictures in our instructions help guide you through your Tooth Whitening training. In our Tooth Whitening Starter Set you are provided with a password allowing you to go onto our website to download after care, a client history form and a questionnaire for a certificate. Our downloads also include a before and after photo template, customer appreciation cards, pictures, logos and leaflets to help you market your Tooth Whitening treatment.

We have training available. We provide trainings at your own salon for an additional £150 and will bring and assemble the Starter Set on your training day. If you would prefer to train yourself, which we believe you can do, an additional £20-30 will be added to your costs for delivery of your Starter Set.

Customer support is very important to us and has been since 1999. We offer customer support by telephone and email. Our contact details are:

Tooth Fairy GmbH
Aeulistrasse 1, 9470 Buchs, Switzerland
